

FRANCIS SULTANA
x
BONACINA

Press Release

More than 20 years of collaboration culminates in the launch of an exclusive and sophisticated Capsule Collection **Francis Sultana x Bonacina** that combines the stylistic signature of the award-winning designer and decorator with Bonacina's excellent craftsmanship and technical virtuosity.

This Capsule Collection features a curated selection of designs conceived both for outdoor and indoor use. In the words of Francis: *"The new collection is the fruition of several years' work and is my homage to the skilled crafts people I have had the pleasure of working with, over two decades, on many of my interiors' projects."* Each product is entirely hand-made in the Bonacina's Italian workshop. Each piece of the collection is extremely versatile and suitable for use in any area of the home or garden.

A perfect combination of functionality and timeless beauty.

Martina indoor sofa lacquered in Lichene finish.

The ode to the natural world is evident throughout the collection: *"My inspiration from nature and the illustrious collaborations in the history of Bonacina gave me the inspiration for my collection."*

Bronze details embellish the pure lines of the products with silhouettes that evoke plants and sea creatures such as corals. *"The pieces look delicate but they are in fact incredibly robust with the rattan manufacture of Bonacina combined with my signature bronze detailing, meaning for me they will be lasting design pieces, in the true history of the Bonacina collaborations."*

The pieces can work in all seasons and all climates: the **indoor** collection has a decorative appearance rich in detail and is elegantly weaved in natural material.

Francis Sultana is one of the world's foremost interior and furniture designers, working across both residential and commercial projects. In 2019 he celebrated the tenth anniversary of his eponymous studio based in St James's, London. Loved for his unique ability to merge the residential requirements of a domestic or commercial space with often large-scale visual art, sculpture and installation pieces, his studio is working on projects in the UK and across Europe and the US.
